Techniques for partition assembly

here is the evolution of one of our technique of assembly of a wall

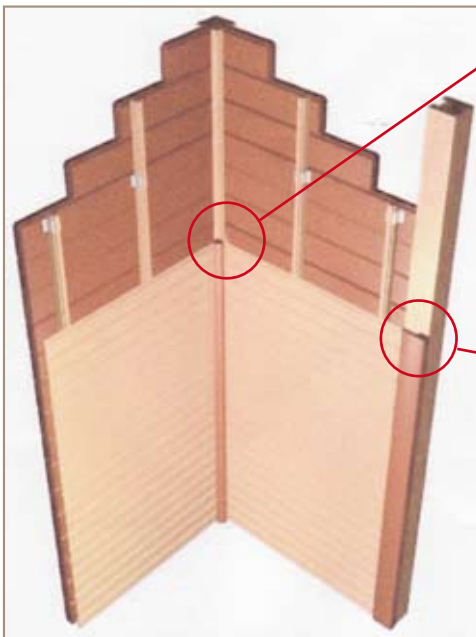

Techniques for partition assembly

5/

Post vertical columns :

These are produced from Angelim Pedra hardwood and consist of three members bolted and screwed into a solid column in dimensions of either 11x11 cm (43/8"x43/8") or 13x13 cm (51/8"x51/8") for kits that need further strengthening due to heavy wind conditions.
